

Be Your Own Psychic! Learn how to Remote View.

...with world renowned Remote Viewer and President of PSI TECH Inc.

Joni Dourif

Learn how to Remote View and be more consistently accurate than the worlds best Psychics! Remote Viewing is a skill, like language, which can be learned, that will give you the ability to find out the truth about anything, any person anywhere at anytime. Sound unbelievable? The US Military spent 20 million dollars developing this profound mind skill, and now, you can learn it too!

PSI TECH Inc. is the company which was founded by the original military members who ushered this formally classified top secret technology out of the confines of Military secrecy in 1989. PSI TECH was formed with the promise to keep this valuable technology in its pure and proven form.

Joni Dourif, *President and Director of Training*, at Technical Remote Viewing University (TRVU) is now offering “hands on” Remote Viewing training classes and seminars for people who desire a personalized setting to learn this life changing technology.

Joni developed the first training system to enable civilians to learn this skill, and in her 15 years has personally trained more students then anyone else in her field.

Joni’s clinical background in therapeutic psychology and her mastery in Technical Remote Viewing provides students with a fulfilling learning experience that cannot be found anywhere else.

In Joni’s personalized training classes, students are taught to proficiently apply the Technical Remote Viewing skills that are geared optimally for each individuals interest and purposes. Classes are tailored in a manner best suited to each students’ individual lifestyle, unique personality traits and idiosyncrasies of learning. With Joni’s training, you are guaranteed to learn this skill.

Joni is a purist and does not deviate from the authentic Technical Remote Viewing techniques and proven protocols. However, she has developed unique ways to teach the skill in a seemingly effortless manner for students of all walks of life.

Joni’s presentation on the theory of the human psyche and how and why Remote Viewing works is a testament to her empirical knowledge and expertise that is unsurpassed in this new and flourishing industry.

If you are looking for a mentor and coach with mastery in the Remote Viewing protocols to teach and inspire you with a life changing skill that will enhance and reap rewards for the rest of your life, then she is the instructor for you!

Student Testimonials...

“I have used TECHNICAL REMOTE VIEWING to help me solve some very difficult cases in which all the conventional leads had dried up. Thank you PSI TECH. You are doing a great service to humanity.”

-Richard B., Detective

“Joni, I just finished the first training target, and I am completely blown away! All I did was follow your instructions, and by following TRV structure, the data just came! There is absolutely no question that I accurately got the target, and the experience has “proven” to me that this is more than just a bunch of smoke and mirrors. TRV is a real tool, and your training has opened up a whole new world to me! I look forward to learning more from you! Thanks a million!”

-Peter in Columbus

“I was called to the office of the friend and he described the location of where the stolen item was at during the time of his TRVing. The area and location described was less than 300 yards from the site of the robbery. I began to concentrate on the location and area. To my amazement, the stolen item was at the announced location... I am convinced that TRVing really works. Getting this kind of information without any leads would normally take months or years. The information was quick, accurate, and extremely reliable in my case.”

-Chief of Police, Mississippi

“Remote viewing has confirmed many things I’ve thought should not have been possible through normal mainstream science. It has given me confidence and trust in what is otherwise known as “the universe,” and has been a great booster/buffer in my personal/psychological/mental/spiritual/cognitive development. Remote viewing combines intuition and the “gut feel” we all have with rigor and structure not normally found in new age circles.”

-Michael. S., Arizona

What can I do with TRV?

TRV is a learned skill that you can use as an information gathering tool to answer questions, and solve problems.

You can use TRV for;

...exploring the future. For things such as; business trends, trajectories, optimum mate, optimum career, and hazard avoidance.

...rediscovering the past, such as; historical events, historical anomalies, religious events, unsolved mysteries, and myth and legends penetration.

...business and investment in topics, such as; best-path scenarios, decision support, oil and natural resources exploration, personnel review, product and market research.

...law enforcement in areas like; missing persons, solving crimes, finding evidence, determining guilt, finding perpetrators, and generating leads.

...national defense, in areas such as; finding weapons of mass destruction, counter-terrorism, future events, war-time strategy determination, enemy target location, covert facility penetration, identifying domestic terrorist cells, and spying on your enemies' plans.

...personal mind probes, on topics such as; uncovering a person's real intent, their most coveted secrets, understanding dream meanings, and researching hidden memories.

...medical cures and discoveries in areas such as; optimal treatments and cures, illness source identification, shortened diagnosis times, and future cure and treatment research.

...unsolved mysteries, for topics such as; UFO's, are they real or hoaxes? What are crop circles? Is there an afterlife? What are ghosts? What are those mediums and channelers talking to? Did the Sphinx at Giza get built by humans or somebody else? What secrets lie inside? Is there a hidden library? It's all accessible using TRV.

Anything you need an answer to. Life's biggest mysteries, and your most immediate problems can be answered by TRV. Is there something you lost recently? Not just car keys or missing jewelry, but things that have been stolen can be found. Pets that have wandered away can be located. It doesn't even have to be something of yours. You can remote view the location of lost treasures, the cause of an airplane crash, or even where your kids are right now.

You can also remote view things that aren't even on Earth. You can remote view structures on Mars. What are they used for and who made them?

You can even make money using remote viewing. What's the next big marketing trend? Should you invest in that new start-up, or buy a particular stock? What's the optimum way to market your products? You can find out with TRV.

TRV enables you to get direct, accurate knowledge on all these things and more. Would you like to have access to the truth once and for all? If so, TRV is your answer.

What will I learn in the TRV Training Course?

The student will learn how to target, at will, any person, place, thing or event in the past, present or future. Students are guided through the original military protocols which will teach each individual how to describe a target using raw sensory and dimensional data, manage and separate out imagination and personal analysis from true target data, produce a sketch of the target site, identify the viewer's own emotions as well as the emotions of others present at the target site, and learn how to re-position his/her perspective.

You will learn how to discover your personal Optimum Trajectory, also known as your optimal path in life. Optimum Trajectories show us the direction that will enable us to be the most fulfilled - and the happiest.

Imagine that you have the ability to see your perfect future: a future where you're happy and content; where life brings you meaning and fulfillment; a future where your dreams are made real. You are empowered to discover your optimum mate, career, and domicile, health, money making activity and more... Imagine the possibilities! This is the ultimate self help tool.

Joni's technique will effortlessly allow you to install the Technical Remote Viewing protocols autonomically. The goal of her class is to provide each student the skills to use this very valuable tool to for the rest of their lives.

Note: Our research has shown that chronic usage of marijuana limits the ability to learn this skill.
